The world of end user computing continues to rapidly evolve, and we're not playing catch-up – we're already 10 steps ahead. Get ready for the YES era.

Hybrid working is the new reality. Big changes have happened, and there are many more in motion while the best is yet to come. There's a lot of 'new' facing all of us, and at **DISRUPT 23** we're saying **YES** to it all. Because we know that great things come when we say **YES**, when we push beyond the limit of conventional thinking and adopt technology that blazes a new trail for positive change.

This is the only destination for true EUC innovation, bringing together the leading disruptors, thought leaders, brands, and communities in one vibrant space. Don't get left behind.
